16 August 2021

Consul-General of Bangladesh
24 floor, SUP Tower
75-83 King's Road
North Point

Dear Consul-General,

Hong Kong PhD Fellowship Scheme

I am delighted to inform you that the Research Grants Council of Hong Kong is launching the Thirteenth Round of the Hong Kong PhD Fellowship Scheme (the "Scheme"). The Scheme aims to attract top international students to pursue PhD studies in Hong Kong's world-class research universities. The fellowship provides a monthly stipend of HK\$26,900 (approx. US\$3,400) and a conference and research-related travel allowance of HK\$13,500 (approx. US\$1,730) per year for a period of three years. 300 fellowships will be awarded for PhD studies commencing in the 2022/23 academic year. The deadline for initial application is 1 December 2021.

I have pleasure in enclosing posters and leaflets of the Scheme for your information, and should be much grateful if you would grant assistance in posting or circulating them to interested parties of your university / institution. Electronic versions of the above-mentioned publicity materials are available online for download:

Poster: http://cerg1.ugc.edu.hk/hkpfis/Poster_HKPFIS.pdf

Leaflet: http://cerg1.ugc.edu.hk/hkpfis/Leaflet_HKPFIS.pdf

If you or any interested parties require further information, please feel free to contact us at HKPF@ugc.edu.hk or visit the Scheme's website at www.rgc.edu.hk/hkphd. Thank you.

Yours faithfully,

A handwritten signature in black ink, appearing to read 'Yuk-shan Wong', with a long horizontal flourish extending to the right.

Yuk-shan Wong
Chairman
Research Grants Council

Encls.(2)

Welcome Message from the Chairman, Research Grants Council

The Research Grants Council (RGC) of the Hong Kong University Grants Committee (UGC) is committed to promoting world-class research in Hong Kong. Through our PhD Fellowships, Hong Kong's outstanding universities offer research opportunities in a broad range of PhD programmes, with generous stipends and excellent support for the best and brightest students in the world. On behalf of the RGC, I proudly present to you the Hong Kong PhD Fellowship Scheme 2022/23.

Established by the RGC in 2009, the prestigious Hong Kong PhD Fellowship Scheme has brought about two thousand five hundred top students from around ninety countries/regions to Hong Kong to undertake PhD studies in our highly ranked research universities in fields ranging from humanities, business and social sciences, to engineering, medical and physical sciences. Following the success in the first twelve rounds, we are looking for talented people who wish to pursue their PhD studies in Hong Kong, and aspire to be research elites of the time to take part in the Thirteenth Round, study awards of which will commence in the 2022/23 academic year.

Hong Kong, long an international business and finance centre and a unique bridge between East and West, draws talent from all corners of the globe. Our research universities have strong dynamism and drive, with international faculty and students excelling in the forefront of research. Our Fellowship programme unites cultural diversity and a rich research environment.

Hong Kong's universities are extending the boundaries of various fields including sciences, engineering, humanities, arts, social sciences, medicine, biotechnology, business, and specialisations such as AI and robotics, infectious diseases, Fintech, urban green engineering, textile design, logistics and supply chain management.

Our universities host some of Asia's – and the world's – best facilities and programmes, from our world-class business management programmes to pioneering research in areas such as brain science, avian influenza, liver transplantation, nanoscience and new materials, wireless communications, China studies, clean energy and sustainable environment, and Chinese medicine. With English as the medium of instruction and research universities steeped in international collaboration, research and career opportunities abound.

I encourage you to learn more about Asia's World City and the opportunities our universities present. A culturally rich, cosmopolitan city set amidst the sea and mountains, nestled against China and its rich heritage, Hong Kong and its research universities offer the world's best and brightest students an ideal place to study, live and work.

I look forward to welcoming you to Hong Kong.

Professor Yuk-shun Wong

Who are you?

Candidates seeking admission as new full-time PhD students in the eight UGC-funded universities, irrespective of their country of origin, prior working experience, and ethnic background are welcomed to apply.

About the

The Fellowship will provide a conference and research up to three years, 300 PhD 2022/23 academic year!

How are you?
