3. PREPARATORY EDUCATION AND STUDY AT UNIVERSITY

● Preparatory Education ※Not provided for grantees enrolling directly in their university

- ① Each grantee will be enrolled at a preparatory educational institution designated by MEXT for the first year of the scholarship period. The preparatory course is a one-year intensive course in the Japanese language and other subjects necessary for preparation for proceeding to university. Its curriculum mainly consists of education in the Japanese language, and includes other subjects such as Japanese affairs, mathematics, English, and social studies for those majoring in Social Science and Humanities, and physics, chemistry and biology for those majoring in Natural Sciences.
- ② A grantee who has completed the preparatory education will go on to a university designated by MEXT upon passing its entrance examination undertaken by the university. If a grantee is determined to be incapable of completing the preparatory course, his/her scholarship will be cancelled and he/she will be required to return to his/her home country.
- ③ If a grantee cannot enter the university even though he/she has completed the preparatory education, his/her scholarship will be cancelled, and he/she will be required to return to his/her home country.

(2) University Education

- ① The university which a grantee will enter will be decided by MEXT in consultation with the university and the preparatory educational institution and in comprehensive consideration of the results of the academic examinations in the First Screening conducted at the Japanese Embassy or Consulate (hereinafter referred to “Japanese diplomatic mission”) in the country of applicant’s nationality, academic achievement at the preparatory educational institution, the grantee’s proposed major subject, and the receiving capacity of the university as well as the region where it is located. No objection by the grantee against the decision will be allowed.
- ② In principle, the academic year begins on April 1 each year and ends on March 31 the following year.
- ③ All classes will be given in the Japanese language (except where a grantee is directly placed at a university which requires no Japanese language ability). (See 4. DIRECT PLACEMENT)
- ④ If a grantee attends the designated university for the prescribed number of years and earns the required number of credits as determined by the university, he/she will be awarded a bachelor’s degree.

(3) Change of Field of Study, Transfer to Another University and Subjects to be Studied

- ① A grantee will not be permitted to change his/her course (Social Sciences and Humanities A and B, and Natural Sciences A, B, and C).
- ② A grantee will not be permitted to transfer to another university during the period of the preparatory education course or the undergraduate course.
- ③ A grantee must study compulsory subjects as determined by the preparatory educational institution and the university even if he/she has already studied them at a university outside Japan.

4. DIRECT PLACEMENT

- (1) Only for those who choose “Social Sciences and Humanities”, if MEXT judges that they have sufficient Japanese language ability, etc., they will be directly placed in a university without going through preparatory education. In addition, regardless of their fields of study (either Social Sciences and Humanities or Natural Sciences) applicants who have sufficient Japanese language proficiency may request to enroll directly in their university without taking the preparatory education course. For cases where the undergraduate course of a university does not require Japanese language proficiency at the time of enrollment and allows applicants to enroll without going through the preparatory education, applicants may directly enroll in the said undergraduate course. (These cases are called “direct placement”.) In such cases, enrollment may be either from the spring term (grantees arrive in Japan in April 2025 and start from the spring term) or from the autumn term (grantees arrive in Japan in September or October 2025, and start from the autumn term), depending on the university’s academic calendar.
- (2) The decision on universities of applicants who are eligible for direct placement shall be made by MEXT in consultation with the relevant university, based on the preference of each applicant who has passed the First Screening. The university will examine the applicant’s academic achievement (academic grades in high school, etc.), and determine whether the applicant has adequate language skills for taking an undergraduate course in

either Japanese or English by a language proficiency test score (such as the Japanese-Language Proficiency Test (JLPT) for Japanese). In addition, some universities may conduct interviews with applicants or other examinations.

- (3) The period of consultation for direct placement will be from after the Second Screening to February 28, 2025. If the accepting university agrees to accept the applicant, he/she will enroll in the university under direct placement, otherwise he/she will be required to enroll in the preparatory educational institution.

5. QUALIFICATIONS AND CONDITIONS

(1) **A grantee who studies at a preparatory educational institution prior to enroll in a university:** The scholarship period will last for five years from April 2025 to March 2030, including one-year preparatory education in the Japanese language and other subjects due to be provided upon arrival in Japan. For scholarship grantees majoring in medicine, dentistry, veterinary medicine or a six-year course in pharmacy, the scholarship period will be seven years until March 2032.

(Note) If the university term begins (and the student status is acquired) in the middle of the month, the scholarship will not be paid for that month.

(ex.) If the university's autumn term starts on a day between September 2 and September 30, 2025, the beginning month of the scholarship period shall be October 2025.

(2) **A grantee who enroll in a university through direct placement:** The scholarship period will last for four years (or for six years for those majoring in medicine, dentistry, veterinary medicine or in a six-year course in pharmacy). The scholarship period will start from the time of enrollment in the university which the university designates.

(Note 1) In (2) above, in principle, the period of enrollment may be April 2025, September 2025 or October 2025 depending on the university's academic calendar.

In cases when it is impossible for the grantees to fulfill the fixed standards necessary for practical training, the scholarship may be cancelled.

(3) Extension of period of scholarship

If a grantee graduates from an undergraduate course, is admitted for enrollment in a master's course or a doctoral course (first phase) at a graduate school during the period of his/her scholarship and has outstanding academic achievement that meets certain criteria, he/she may have the scholarship period extended upon a successful examination by MEXT.

A supplemental regional allowance of 2,000 yen or 3,000 yen per month will be added to the monthly scholarship amount for the grantees studying or conducting research in specially designated regions. Due to the situation of the Japanese Government's budget, the amount of payment may be subject to change each fiscal year. If a grantee is absent from the university or the preparatory educational institution for an extended period, the scholarship shall be suspended for that period.

(2) **Education Fees:** Fees for the entrance examination, matriculation, and tuition at universities will be waived.

8. SUSPENSION OF PAYMENT OF SCHOLARSHIP

Payment of the scholarship will be cancelled for the reasons given below. Should any of the following reasons apply, the grantee may be ordered to return a part of, or all of, the scholarship paid up to that time. In such cases, MEXT will provide an economy-class airline ticket from the grantee's country of nationality to the said third country, and from the third country to an international airport in Japan used on the normal route to the accepting university. In principle, the address given in the space for "Current address" on the application form shall be recognized as the "residence." However, if the grantee plans to move within his/her country of nationality after application, the address given in the space for "Your address before departure for Japan" on the application form shall be recognized as the "residence" and the airline ticket will be arranged for a flight from the international airport nearest to that address. Except for cases when the grantee must travel to a third country to obtain a visa, MEXT will not provide an airline ticket for cases of travel to Japan from a country other than the grantee's country of residence due to the grantee's personal circumstances. If a grantee will arrive in Japan before or after the specified period stated in "3. (6) Arrival in Japan", travel expenses will not be paid.

② **Transportation from Japan:** Based on the application by the grantee, MEXT will provide an airline ticket to grantees who shall graduate the accepting university and return to the home country by the end of the final month of the period of scholarship (See "4. PERIOD OF SCHOLARSHIP") designated by MEXT. MEXT shall provide an economy-class airline ticket from the international airport in Japan used for the normal route to and from the accepting university to the international airport (in principle, in the country of nationality) nearest to the returning grantee's residence. The grantee shall bear at his/her own expense all costs related to travel from the grantee's residence in Japan to the nearest international airport, airport taxes, airport usage fees, special taxes necessary for travel, travel expenses within the country of nationality (including airline transit costs), travel insurance expenses, carry-on luggage or unaccompanied baggage expenses, etc. If a grantee returns to the home country before the end of period of scholarship due to personal circumstances, or reasons stated in "7. SUSPENSION OF PAYMENT OF SCHOLARSHIP", MEXT will not pay for the returning travel expenses. If a grantee continues to stay in Japan after the scholarship period has ended (ex. proceeding to further education or being employed in Japan, continuing to register at the university), travel expenses for a temporary return will also not be paid.

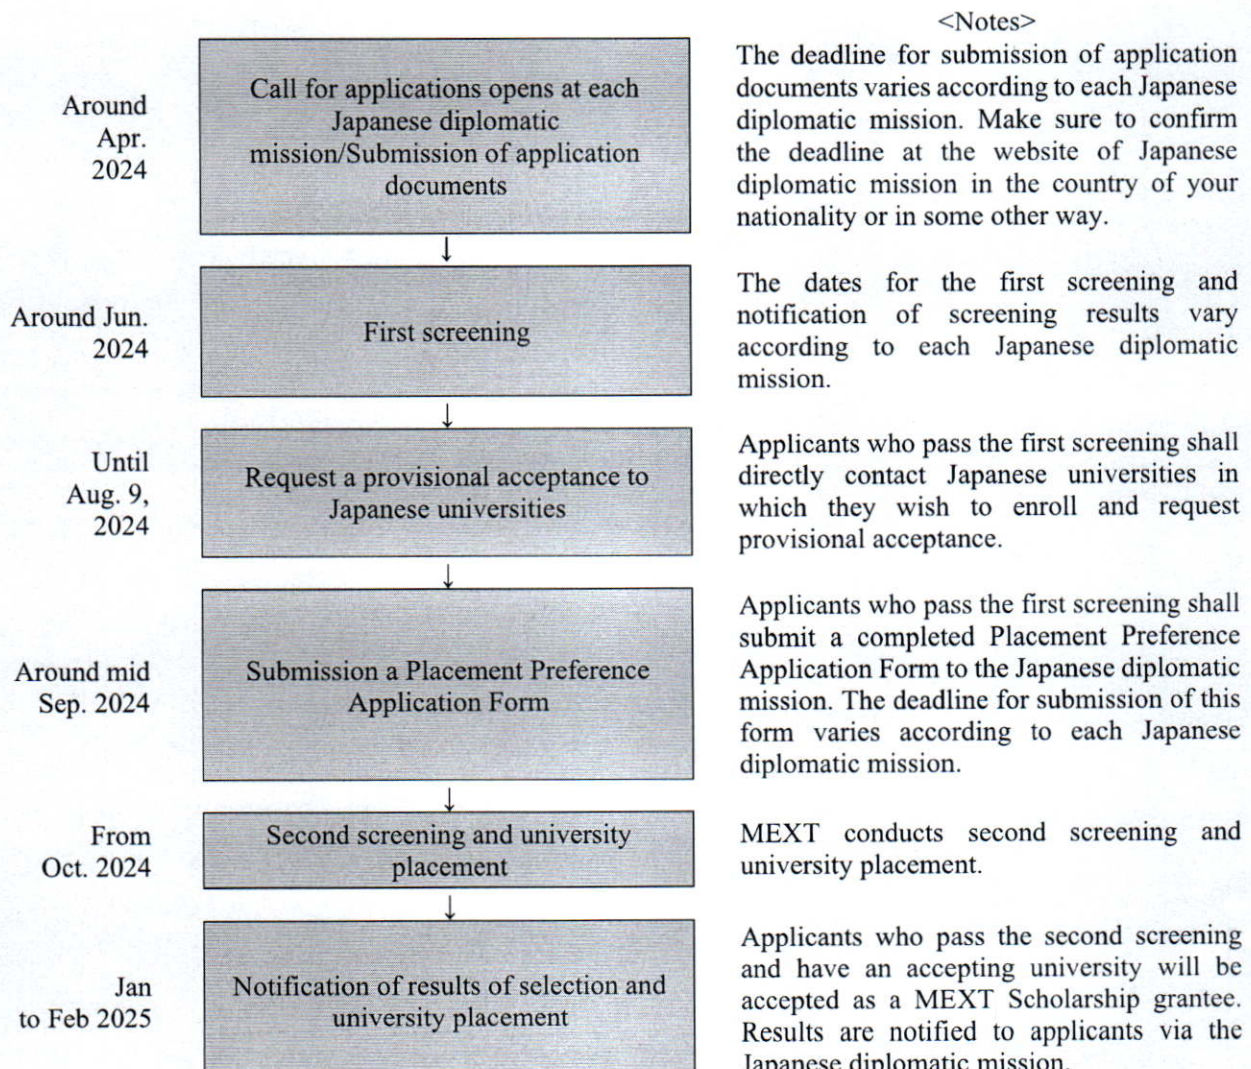

7. SUSPENSION OF PAYMENT OF SCHOLARSHIP

Payment of the scholarship will be cancelled for the reasons given below. Should any of the following reasons apply, the grantee may be ordered to return a part of, or all of, the scholarship paid up to that time. Payment of the scholarship may also be stopped during the period up to the decision on the disposition of the matter.

10. FIRST SCREENING

- (1) The Japanese diplomatic missions will conduct the First Screening of applicants by means of examination of submitted application documents, written examinations of language proficiency and interviews.
- (2) The subjects of written examinations of language proficiency will be Japanese and English. Both subjects must be taken by all applicants. The result of the Japanese language examination will be used as reference for the Japanese-language preparatory education to be provided after the grantee's arrival in Japan. Moreover, the English proficiency test may be exempted for countries where English is the official language. Applicants must follow guidance by the overseas diplomatic establishment of their national origin.
- (3) The following policy will apply to each stage of screening:
 - ① Examination of submitted application documents: Must show that the applicant's academic achievement at the university that he/she last graduated from equaled to or exceeded a certain level, and state the applicant's research plan in a detailed and concrete manner;
 - ② Written examination of language proficiency: Must show language proficiency adequate for research in a Japanese university;
 - ③ Interview: Must reveal that the applicant has a clear sense of purpose relating to his/her study in Japan and has gathered information about Japanese universities. The interview must also reveal that the applicant has sufficient Japanese or English language ability to communicate with his/her academic advisor in Japan. If the applicant desires to study a subject that requires advanced Japanese language proficiency, the interview must show that the applicant has a considerable degree of Japanese language proficiency.
- (4) The date and time of the notification of the results of the First Screening will be specified separately by the

Japanese diplomatic missions in the applicant's country; the reasons for the results of the screening will not be disclosed. Those who pass the First Screening will not necessarily be selected as the MEXT Scholarship grantees.
(5) The results of the First Screening will be used as reference for the Second Screening and the university placement.

11. REQUEST OF PROVISIONAL ACCEPTANCE AND SUBMISSION OF A PLACEMENT FORM

(1) A letter of provisional acceptance will greatly influence final selection results. Applicants may be rejected if they have not obtained any such letter. Applicants who have passed the First Screening should, therefore, ask universities they wish to attend to issue letters of provisional acceptance.

(2) Applicants who have passed the First Screening shall directly contact the Japanese universities they wish to enter after the notification of the First Screening results by Friday, August 9, 2024 (Japan time) in order to request the issuance of letters of provisional acceptance as a regular or a non-regular student in graduate school. Applicants should be aware the following notes.

① The number of universities which can be filled in the ②Placement Preference Application Form is up to three universities. The applicants can, however, obtain up to a maximum of two letters of provisional acceptance. Do not obtain more than two letters of provisional acceptance.

② Applicants can contact up to a maximum of two universities at the same time. Do not contact more than two universities at the same time. If, however, they have received a rejection from one of the universities and thus they have been waiting for reply from less than two universities, then they can newly contact another university for request a letter of provisional acceptance.

③ If Applicant is rejected by an university, he/she should neither request an acceptance letter from another faculty member or graduate school at that university, nor lodge an objection to the university.

④ A contact with universities requesting issuance of a letter of provisional acceptance made on Saturday, August 10, 2024 or after is not permitted.

⑤ Since the above "Friday, August 9, 2024 is not the deadline for the universities to issue a letter of provisional acceptance, applicants must not urge the universities for the issuance. However, applicants may confirm with the university if the scheduled time of the issuance is delayed. In addition, applicants should keep it in mind when scheduling request letters of provisional acceptance that universities generally need one month to issue a letter of provisional acceptance.

⑥ Applicants should first contact the division of international student affairs at the university (not an academic advisor you wish to be supervised by) to request a letter of provisional acceptance. (MEXT will inform the divisions of international student affairs beforehand that applicants who have passed the first screening may contact them.) The Japanese diplomatic mission can provide a list of contact information.

⑦ The information on useful websites to search Japanese universities and researchers are also available from the Japanese diplomatic mission.

(3) When requesting universities for issuance of a letter of provisional acceptance, applicants must submit directly to universities the following documents (a) and (b).

(a) Copy of a Passing Certificate of the First Screening issued by the Japanese diplomatic mission

(b) A set of copies of the following documents submitted to the Japanese diplomatic mission among the "9. APPLICATION DOCUMENTS" that have been stamped by the Japanese diplomatic mission and returned to the applicants

- ① Application Form
- ③ Field of Study and Research Plan
- ④ Academic transcript for all academic year of university attended
- ⑤ Certificate of graduation or degree certificate of the university attended
- ⑥ Recommendation letter from the president/dean or the academic advisor at the current or last university attended
- ⑦ Medical Certificate
- ⑧ Abstracts of theses (*Only if submitted to the Japanese diplomatic mission)
- ⑨ Certificate of language proficiency (*Only if submitted to the Japanese diplomatic mission)
- ⑩ Recommendation letter from the present employer (*Only if submitted to the Japanese diplomatic mission)
- ⑪ Photograph(s) showing applicant's own works of art or a digitally recorded media of musical performance (*Only if submitted to the Japanese diplomatic mission)

Applicants must submit any other necessary documents requested by universities. Do not submit " ②Placement Preference Application Form" to the universities.

The above documents (a) and (b) should be sent by e-mail, but in cases when it is difficult to access the Internet, the documents may be sent by postal mail. Please make sure each document ①, ③ to ⑪ have been stamped, and that all lettering and photographs are clear and legible. Please also note that if a copy of the Passing Certificate of the First Screening is not submitted, the university cannot comply with the request to issue a letter

of provisional acceptance.

- Applicants must always report the response from the universities and submit the final Placement Preference Application Form based on the responses from the universities and obtained letters of provisional acceptance to the Japanese diplomatic mission by the specified deadline. It is not allowed to fill in the Placement Preference Application Form the names of universities or supervisors and all departments at the universities that have declined the applicant's request.
- (5) Applicants should confirm carefully with the universities the period of arrival in Japan specified in the letter of provisional acceptance because it is not permitted, in principle, to change the specified period of arrival even if the applicants have stated in their Application Forms that they were able to arrive in either for the April term or the October term.
 - (6) Forms other than those specified by MEXT for the letter of provisional acceptance will not be accepted. If a university issues a letter of provisional acceptance in a different format, the applicant should promptly contact the university and request that the university issue the letter in the MEXT-specified format.

12. SECOND SCREENING AND UNIVERSITY PLACEMENT

- (1) MEXT conducts the Second Screening based on the results of the First Screening conducted by the Japanese diplomatic mission in the applicant's country, and selects the applicants as the MEXT Scholarship Students as long as their placement to universities have been decided.

An application may be rejected if it arouses proliferation concerns including those over weapons of mass destruction (WMD) and related items.

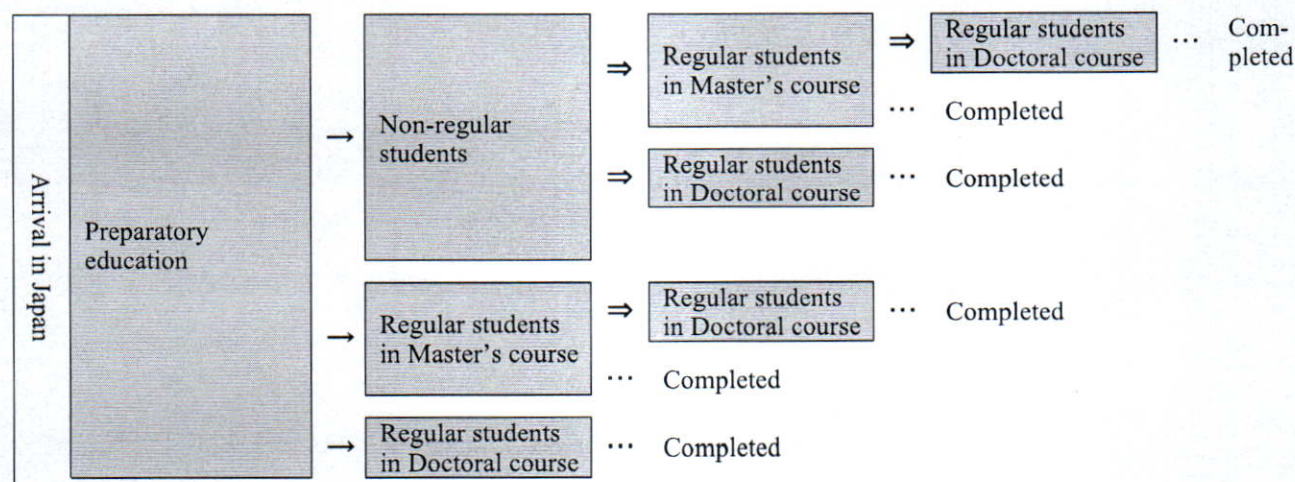

- (2) An applicant who successfully passes the Second Screening will, in principle, be placed at the university from which the applicant has received a letter of provisional acceptance. MEXT will hold consultations with the three preferred universities listed in the applicant's Placement Preference Application Form and place the applicant at the university that approves the admittance as result of the consultation.

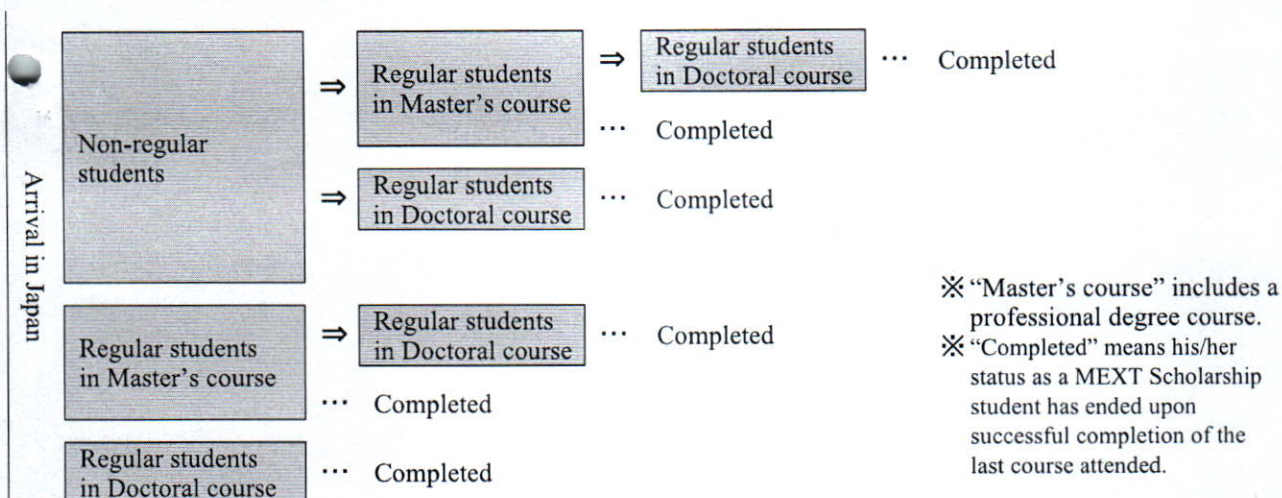

In case that the applicant's preferences include a private or non-national public university as well as a national university, the applicant's preference order specified in his/her Placement Preference Application Form may not be met due to restrictions on the Japanese government's budget, and the option of national university is prioritized regardless.

- (3) Applicants who receive a letter of provisional acceptance to the regular course at a graduate school will be directly placed in the said regular course without going through the period of the non-regular student.
- (4) If an applicant is judged by the accepting university, based on the results of the written examination of language given in the First Screening, not to have adequate Japanese language proficiency to understand lectures or research guidance for experiments or practical training at the university, the applicant will be placed in a course of Japanese-language preparatory education at an institution designated by the accepting university or MEXT for the first six-month period after the arrival in Japan. Upon completion of the Japanese language course, the grantee will enter the accepting university for advanced education.
- (5) If a grantee is deemed by the accepting university to have sufficient Japanese language proficiency to conduct research, the grantee may directly enter the accepting university as a regular student or a non-regular student.
- (6) Applicants will be notified by the Japanese diplomatic mission of the final selection results and the grantees' accepting university from January 2025 to February 2025. The reasons for the results of the final selection will not be disclosed. Any objections to the decision on the university placement will not be accepted.

13. ACADEMIC PATHWAY FOR RESEARCH STUDENTS

The following chart indicates possible academic pathway as a MEXT Scholarship Research Student.

- (1) In the above chart, the single-lined arrow \rightarrow indicates that the application for extension of the scholarship period is unnecessary. The double-lined arrow \Rightarrow indicates that the application for extension of the scholarship period will be necessary to proceed to a higher program. Extension of the scholarship period will be permitted only if the successful student has passed an entrance examination for a regular degree program at a graduate school. (See "5. EXTENSION OF PERIOD OF SCHOLARSHIP".)
- (2) While the entrance examinations to graduate school vary depending on universities, assessment of the applicant's foreign language competence, grasp of the specialized subject for study, plans for the graduation thesis, interview, etc. are normally included.
- (3) The degree courses at the university's graduate schools under the Japanese school system include as follows.
 - ① Master's degree course: The standard period of study is two years subsequent to graduation from a university. In some courses, the duration is less than two years but more than one year. Students who complete a master's degree course are awarded a Master's Degree.
 - ② Doctoral degree course: A three-year degree course subsequent to completion of a master's degree course. In the fields of medicine, dentistry and veterinary science, and pharmacy which is based on a 6-year undergraduate course, most of the universities offer only 4-year doctoral courses. - (2) As the first installment of the scholarship payment will be made from one month to one and a half months after the grantee's arrival in Japan, the grantee is recommended to bring at least approximately US\$2,000 with him/her to Japan to cover immediate living expenses and other necessary expenses.

The grantees enrolled at such universities may reside at these residence halls under certain conditions. However, due to the limited number of rooms, some of these facilities may be unavailable. Expenses relating to accommodations will be borne by the grantee. As some universities might ask the grantees to pay expenses relating to accommodations in advance of arriving in Japan, grantees should check with the accepting university after its decision on their acceptance.

② Private boarding houses or apartments: Those who are unable to find accommodation in the aforementioned facilities may live in regular dormitories of the university or in private boarding houses/apartments with his/her expenses. It is difficult for grantees with dependents (spouse and children) to find appropriate housing in Japan. The grantee is requested to arrive in Japan alone first to secure housing before having his/her dependents come to Japan.

(8) Information regarding the MEXT Scholarship Students (name, gender, date of birth, nationality, accepting university/graduate school/undergraduate school, field of specialty, period of enrolment, career path after completion of scholarship, contact information [address, telephone number, e-mail address]) may be shared with other relevant government organizations for the purpose of utilization for international students programs implemented by the Japanese Government (support during period of study in Japan, follow-up survey, improvement of the international student system).

Information regarding MEXT Scholarship Students (excluding date of birth and contact information) may be included in publicity materials prepared by the Japanese Government for promoting the acceptance of international students in Japan, particularly in order to introduce former MEXT Scholarship Students who are playing active roles in countries around the world.

These matters are included in the Pledge stipulating rules and regulations which MEXT Scholarship Students must comply with and submit when they have been granted the Scholarship. Those who consent to this treatment will be admitted as MEXT Scholarship Student.

(9) In principle, receiving another scholarship from an organization (including a government organization of the home country) other than the Japanese government (MEXT or other Japanese government organization) is permitted. (10) If an applicant is judged not to meet the conditions for landing in Japan, he/she may be rejected.

(11) The English texts attached to the Application Guidelines and the Application Form are for complementary use only. English expressions do not change the Japanese content.

(12) If there are any questions about the content of the written text in this Application Guidelines or any other matters, applicants/grantees should inquire the Japanese diplomatic mission in the country of the applicant's nationality and follow their instructions.

(13) In addition to the regulations stipulated in this Application Guidelines, those that are necessary to implement the Japanese Government Scholarship programs shall be determined by the Japanese Government.

travel expenses within Japan (including airline transit costs), travel insurance expenses, carry-on luggage or unaccompanied baggage expenses, etc. The grantee shall also bear at his/her own expense travel and lodging costs incurred in a third country in case (a) the grantee must travel to a third country on the way to Japan for visa purposes because there are no Japanese diplomatic missions in his/her country or because Japanese diplomatic missions in his/her country are temporarily closed, or (b) there are no direct flights from the grantee's country of nationality to Japan. In such cases, MEXT will provide an economy-class airline ticket from the grantee's country of residence to the said third country, and from the third country to an international airport in Japan used on the normal route to the accepting institution. However, if the grantee plans to move within his/her country of nationality after application, the address given in the space for "Your address before departure for Japan" on the application form shall be recognized as the "residence" and the airline ticket will be arranged for a flight from the international airport nearest to that address. Except for cases when the grantee must travel to a third country to obtain a visa, MEXT will not provide an airline ticket for cases of travel to Japan from a country other than the grantee's country of residence due to the grantee's personal circumstances. If a grantee will arrive in Japan before or after the specified period stated in "4. (6) Arrival in Japan", travel expenses will not be paid.

If a grantee continues to stay in Japan after the scholarship period has ended (ex. proceeding to further education or being employed in Japan, continuing to be registered at the university), travel expenses for a temporary return will also not be paid.

7. SUSPENSION OF PAYMENT OF SCHOLARSHIP

Payment of the scholarship will be cancelled for the reasons given below.
