**Moroccan offer of educational places with scholarships  
for foreign candidates for the academic year 2021/2022**

Despite the pandemic situation linked to Covid-19, the Kingdom of Morocco has decided to renew its offer of academic cooperation for the benefit of partner countries, for the 2021/2022 academic year and to host, from the month of September 2021, new students from these countries, to allow them to continue, in face-to-face mode, their university, technical or professional training.

This decision was taken in consultation with the various ministerial departments concerned, subject to the application and strict compliance with the health protocol, put in place as part of the fight against the spread of Covid-19, by the students benefiting from this cooperation offer.

Thus, the health protocol put in place by the Moroccan authorities distinguishes countries into two categories, depending on the risk of the spread of Covid-19 (List A - List B). Specific health conditions are applied to nationals of different countries according to the list in which they are classified (attached the document " in 10 pages " setting the conditions of access to Moroccan territory.

In addition, it should be noted that, like in the previous year, students from non-French-speaking countries are invited to follow the session of refresher courses in French in the appropriate centers for this purpose (Alliance française, Center Culturel Français...) in their countries of origin. This decision was made for the following reasons:

- Conclusive results recorded during the 2020/2021 academic year, through the organization of said language training session in the country of origin. This assumes that the beneficiary students were more motivated to succeed in the language program;
- Limited capacity of the International Language Center under AMCI;
- Reduction to 50% of the reception capacity of university halls (Cité Universitaire Internationale included).
- Better management of the number of students to be sent to Morocco. Only students deemed fit to continue their studies in French will be allowed to travel to Morocco.

In this context, the Kingdom of Morocco makes available to brother and friendly countries quotas of educational places with scholarships, in Moroccan public institutions of higher, technical and professional education, for the academic year 2021/ 2022.

The information below specifies the conditions and procedures for implementing these quotas :

## V- Registration process

- \* Successful candidates will each receive, through diplomatic channels, an "Information Letter / Convocation" in their own name, containing information on the conditions of training and scholarship awarded to them, as well as those of their study stay in Morocco.
- \* Candidates subject to the visa system, will have to obtain a long-stay visa (**student visa**) issued by Moroccan Diplomatic or Consular Posts in the country of residence.

He / she should then :

- Join the training establishment to complete the formalities for the final registration. He/she must comply with the rules of the establishment where he / she is registered.  
Training in public institutions in Morocco is free. However, some institutions providing technical training may require the purchase of specific materials and / or the payment of related fees, which remain the responsibility of the student,
- Send / submit to the AMCI a certified copy of the registration certificate issued by the training institution.

## VI- Cooperation Scholarship

The AMCI scholarship is awarded to students selected under the official quota, who hold, at least, a high school diploma or a recognized equivalent degree, and who must pursue a higher studies cycle or professional training, sanctioned by a state diploma, in a Moroccan public institution.

**The scholarship offers being annual, unused scholarships, as well as those programmed for candidates who withdraw, can not be renewed or be cumulated, for the following years.**

The training grant is a maintenance grant, its grant does not imply, in any case, the assumption of the expenses of registration, internship, transport or any other charges inherent to the continuation of the studies, and which remain the responsibility of the student.

The amount of the scholarship is 750.00 Dirhams (about 75 US \$) per month, whatever the cycle, the nature of the training and its duration. This amount may be subject to possible levies (university accommodation fees...).

The scholarship is, in principle, served for a period of 12 months per academic year (from September to August of the academic year in question). Nevertheless, its payment is **linked to the actual and regular presence** of the beneficiary in the establishment where he / she is registered.

The training grant is payable bi-monthly, in accordance with the timetable set by the AMCI.

The payment of the scholarship is made by the beneficiary himself / herself, up on presentation of his / her passport, at all the counters of the agencies of the Banque Populaire.

Students who have obtained a Master's degree or Doctorate degree may benefit from a flat-rate grant relating to the cost of printing dissertations or thesis, subject to the submission to AMCI of a copy of the book, of a certified copy of the diploma or certificate of final training.

The terms and conditions for the award and collection of the scholarship are recorded in the booklet "Regulations on training and internship grants awarded to foreign students and trainees", which will be given to beneficiaries upon their arrival in Morocco.

## VII- Accommodation

Given the pandemic context linked to Covid-19, the housing capacity in university halls is reduced by 50%, which, unfortunately, does not make it possible to meet the housing demands of new foreign students. They will therefore not be able to claim accommodation in university halls (Cité Universitaire Internationale included), and must therefore find accommodation in the private sector.

In this case, students who use the private sector's rental offer must imperatively establish rental contracts with the owners, which are necessary for obtaining the registration card (residence permit in Morocco).

### VIII- Catering

Many university campuses have a university restaurant serving meals for students at a single, subsidized rate.

Students interested in this service are invited to present themselves to the administration of these campuses to obtain the university restaurant card.

### IX- Medical cover

Foreign students are subscribed, during their study stay in Morocco, to an Insurance Policy that offers them the following benefits:

- Reimbursement of medical expenses ;
- Medical care ;
- Final sanitary evacuation to the country of origin, in case of serious illness preventing the student from continuing his / her studies in Morocco;
- Repatriation of the body in the event of death in the Moroccan territory.

For additional information on the Insurance Policy or related form downloads, please visit the website: [www.finassure.org](http://www.finassure.org).

They also benefit, as well as Moroccan students, from medical care services provided by hospitals and public health centers, covering the entire Moroccan territory.

The Cité Universitaire Internationale has a medical and social service that also offers free medical services to foreign students.

### X- Conditions of stay in Morocco

After completion of the formalities of definitive registration with the training establishment and those of accommodation, students must present themselves, imperatively and as soon as possible, to the service of the foreigners coming under the General Direction of the National Security in their city of residence, to obtain the registration card (stay) in Morocco. This card is renewable each year. The non-renewal of the residence permit will put the student in an irregular situation towards the immigration services.
